Parameter Settings

The screenshot shows a configuration window for a Google Translate plugin. It includes fields for Plugin, Operation name, Plugin version, Properties (msg), Target lang (English), Advanced, Return value, and Result type. Three yellow callout boxes provide instructions: 'Enter source text here. You can use variable too.' points to the msg field; 'Choose the language you want to the translate the text into.' points to the Target lang dropdown; and 'Translation result will be stored in the form of your choice.' points to the Result type dropdown.
