- **Interactives**
- **Plugins**

- Usage notes are illustrated below.

1 **Click and Focus**  
Operation 1

Partial screenshot does NOT work.

Always use full screenshot.

You can choose mouse event from single, double, triple or right clicks, or simple move the mouse over to the position.

Click action can be chosen from down-and-up, down, and up only. **Down click at one position and up click at another can set hold(drag) moves.**

Base position means the position of mouse cursor when this operation executes. Full screen means x=0 and y=0 that is upper left corner.

Action: Click and Focus  
Operation name: Operation 1  
Delay: 0.5 Sec  
Properties: Base position:  Full screen  Mouse position  
Click type:  DownAndUP  Down  Up  x2  x3  Move  
Click point: x 0 y 0
