	**Newuser-SFDC**
	Author: Irene Cho This plugin can create a new user account in salesforce. **Primary Features** You can create a new user account and assign a license **Prerequisite** Salesforce development account (Refer the simple-SFDC wiki page to set the salesforce account : https://wiki.argos-labs.com/display/RPARELNOTE/Simple+SFDC)

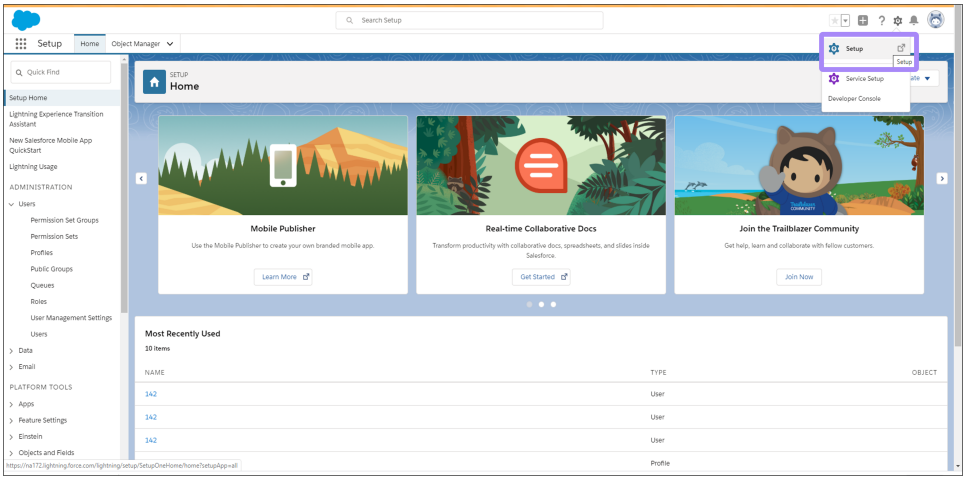

Content

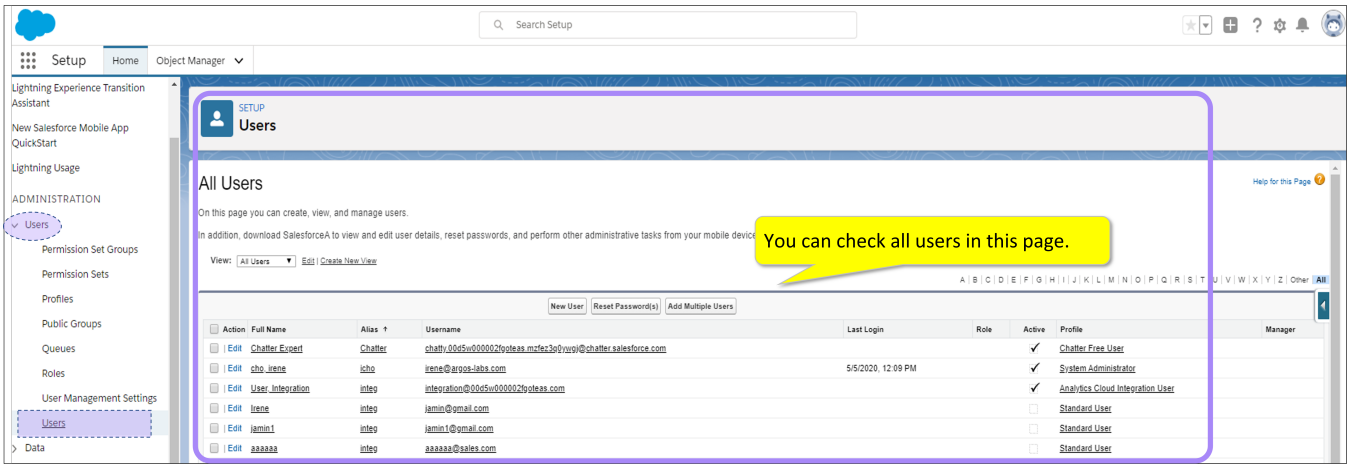

1. Check SFDC User Account
2. Newuser-SFDC plugin operations
3. Newuser-SFDC plugin parameters
4. Example of Json format
5. Common errors in this plugin
6. Example of the plugin in STU

---

1. Check SFDC User Account

- Login into Salesforce Development Account and go to **My Developer Account.** (https://developer.salesforce.com)
- Navigate to **Setup.**

2. Newuser-SFDC plugin operations

Operations	Required parameters	Features
Create	Salesforce credentials, Newusername, lastname, email, alias, timezone, localkey, encoding, profileid OR Jsonfile	Create a new user account.
Select ProfileId	Salesforce credentials (username,pwd, security token)	Give profile Id information.

3. Newuser-SFDC plugin parameters

Parameters	Example	Note
New username	john@sales.com (*email format)	Must be unique name.
Lastname	Smith	
Email	john@sales.com	
Alias	Smith (*str)	Short name to identify the user.
ProfileId	00e5w000002BaFVAA2 (*recommend standard user)	15 characters ID from the URL of the profile in the UI.
LocaleSidKey	en_US (default)	Locale
LanguageLocaleKey	en_US (default)	Language
EmailEncodingKey	UTF-8	Encoding
TimeZoneSidKey	America/Los_Angeles	Particular business hours entry to a time zone.

IsActive	False(default)	Assign a license to the new user.

4. Example of Json format

You can use json file which includes the data for creating a new user instead of inputting the parameters individually

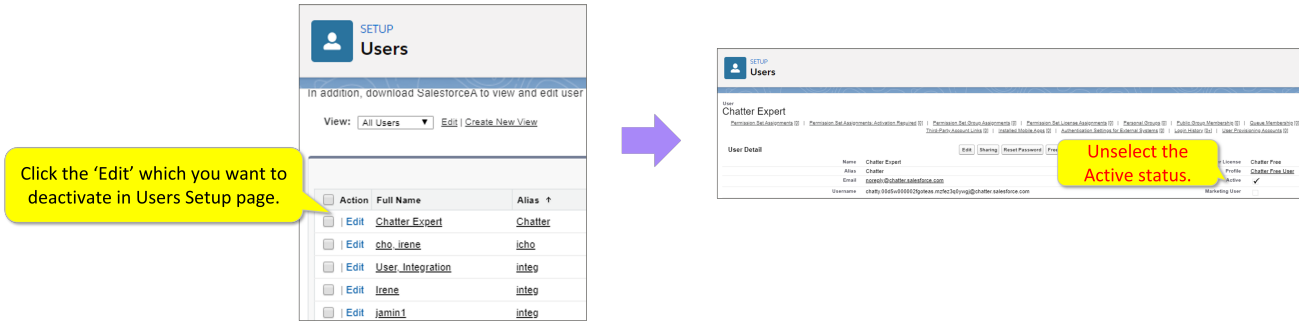

5. Common errors in this plugin

***Common Errors in SFDC Plugin.**

1.'License_Limit_Exceeded' : It occurs when the number of licenses is exceeded.

```
Malformed request https://na172.salesforce.com/services/data/v42.0/sobjects/User/. Response content: [{'message': 'License Limit Exceeded', 'errorC
 'LICENSE_LIMIT_EXCEEDED', 'fields': []}]
```

Solution : Salesforce does not allow to delete the user account completely to you should deactivate the activated user account.

2. Duplicate

```
Malformed request https://na172.salesforce.com/services/data/v42.0/sobjects/User/. Response content: [{'message': "Duplicate Username.<br>The username already exists in th
  another Salesforce organization. Usernames must be unique across all Salesforce organizations. To resolve, use a different username (it doesn't need to match the user's
  address). ", 'errorCode': 'DUPLICATE_USERNAME', 'fields': ['Username']}]
```

Solution : The new username has to be unique.

6. Example of the plugin in STU
